Dedicated and skilled Software Engineer with a strong focus on full-stack web development using the MERN stack (MongoDB, Express.js, React.js, and Node.js). Proven ability to design and implement robust, scalable web applications that deliver a cohesive user experience. Proficient in modern web technologies and design principles, with a commitment to continuous learning and professional growth.

➤ **Education:**

- **Bachelor of Software Engineering**, Adama Science and Technology University (2021-2025)
-

➤ **Professional Experience:**

Intern, Ministry of Innovation and Technology

Jun- September 2024

- Collaborated with the technical team to design and implement web applications tailored to the ministry's needs.
- Applied MERN stack expertise to develop scalable and efficient web applications.
- Gathered requirements and translated them into functional specifications, contributing throughout the application lifecycle.

Intern, ASTU ICT Center

July - September 2023

- Developed web development skills, becoming proficient in HTML, CSS, JavaScript, and React.js.
 - Created a comprehensive Software Requirements Specification (SRS) document outlining key features and technical requirements for a web application project.
-

➤ **Certifications**

E-commerce Development Bootcamp

Adama Science and Technology University

Completed a 45-day intensive bootcamp focused on full-stack e-commerce development, gaining hands-on experience in building e-commerce applications using Next.js, CSS Tailwind and Prisma.

➤ **Technical Skills:**

Languages: Amharic, English

● **Collaboration & Teamwork**

Effective in working within cross-functional teams, ensuring strong communication and contributing to collective problem-solving efforts. Software Design & Development.

● **Problem Solving: Python**

Strong problem-solving skills with Python

● **UI/UX Design**

Proficient in creating intuitive and user-centered designs using tool Figma .Skilled in wireframing, prototyping, and enhancing user experience with a focus on clean and modern design principles.

- **Front-end & Back-end Development:** Hands-on experience with modern technologies and frameworks such as HTML, CSS (Tailwind), JavaScript, React.js, Node.js, Next.js, and Express.js for full-stack development.
 - **Database Management: MongoDB Cloud Atlas**
Skilled in using MongoDB Cloud Atlas for managing and scaling cloud databases, including handling real-time data, security, and backups.
 - **Version Control & Deployment**
Skilled in using Git for version control, managing repositories, and handling deployment processes for smooth project delivery.
-

➤ **Projects**

1. Developed a full-stack e-commerce website using Next.js and Prisma during the e-commerce bootcamp, focusing on building a responsive and user-friendly application.
 2. Created a comprehensive Software Requirements Specification (SRS) for a web application, focusing on user needs and design specifications.
 3. Contributed to various web development projects during internships, enhancing skills in building functional and visually appealing applications.
